Sports Parade

By HENRY McEMORE

DETROIT, (UP)—They turned Joe Louis out to Pastor last night. For 10 rounds he grazed (with his fists) a bit timidly, as if afraid to enjoy to the fullest this curly-haired, red-cheeked, collegian who had been fed to him.

Then, in the 11th, he reverted to type, became the old black Joe that we know. He heard those ungentle voices calling—calling for a knockout. So he bent that head of his a little low, shuffled in, and settled flat on his feet. Up, up from his ankles the muscles started flowing toward his shoulders. Like the glide of a snake the power rolled upward gathering force as it went.

Then it reached the point of delivery, all the strength of his 200 pounds. For just a second he drew a bead, measuring Pastor's face with his outstretched left. The target crossed the sight. The right hand went. It really went. With a muzzle velocity equal to that of a .44 it caught Pastor on the chin. Bob's head flew sideways like that of a man dropped through a gallows trap. His mouth opened and eyes rolled. Then he pitched forward, landing on his hands and knees. In that position—like a child with his blocks—he was counted out.

At the count of 10 another challenger had been finished off, and Louis, scarcely marked, pulled his blue bathrobe about him and walked quietly to his dressing room. He didn't jump up in the air in the ring and yell and clasp his hands over his head or in any way make a play for the crowd. He is, once a job is done, the most mild-mannered champion we ever had.

How many times have you ever heard of Louis between fights? Never in any trouble, he drops quietly into the background until he is summoned forth to knock off another challenger. His business is fighting, nothing else. Fighting is a dirty business as a whole, but the colored boy from Bama has done a lot to lift it from the gutter. He is the cleanest fighter in the ring today. He never has thrown a low punch, and he has never squawked about the dozens that have landed on him. His ring manners are impeccable, and try to name a heavyweight champion before him of which that could be said.

But to get back to last night's fight, Pastor proved his gameness. Knocked down four times in the first round, he came back to make a fight of it. He won the fourth and eighth rounds, despite the fact that his eyes were glazed, his legs rubbery, and his face a bloody smear. He won these rounds on the strength of a big heart and ability to box. There isn't a better boxer in the country than Pastor. To students of the manly art of self-defense he was a lovely thing as he weaved, moved, bobbed, feinted through 10 rounds.

But there is no weave, bob, move or feint that can outdo a crushing punch, and Louis has that. Here's the story of the fight: Louis can hit.

TULLY KNOLES IS SPEAKER

Constitution Day To Be Observed In Meeting At Schoolhouse Tonight

Dr. Tully Knoles, president of the College of Pacific at Stockton, will be the principal speaker at a meeting at Placerville Grammar School auditorium at 8 o'clock tonight, remembering the anniversary of the adoption of the federal Constitution.

The meeting, which the public is welcome to attend, is arranged under the sponsorship of El Dorado Lodge No. 26, F. & A. M., at the suggestion of the Grand Lodge in California to all subordinate lodges.

Harry Jasper, Worshipful Master of El Dorado Lodge, has appointed H. E. Dillinger, Ellsworth Willard and J. G. Leonardo as the committee in charge.

The exercises will be opened with a group of selections by the grammar school orchestra, directed by Miss Laura Ball and Dr. Knoles will speak following community singing of "America" and a joint renewal of the "Pledge of Allegiance to the flag."

Following the address the meeting will close with all singing the National Anthem.

Dr. Knoles, a distinguished California educator, is a very forceful speaker and one well qualified to speak concerning the Constitution. Attendance at the meeting should be amply repaid by his address.

NIGGER TURN ALIGNMENT PROJECT STARTED DURING WEEK

The realignment of the highway at Nigger Turn, about four miles east of Placerville on U. S. Route 50, which was projected several weeks ago by Ed. Willis, local highway district maintenance superintendent, is now under way.

The curve has been the scene of a number of serious wrecks during several months past and the maintenance staff is endeavoring to straighten out the curve as much as possible, within the limitations of the existing right of way.

This is the second such project on the road within recent weeks, the curve at what is known as "Observation Point" about sixteen miles east of Placerville, having been widened a few weeks ago.

Hundreds of contestants from the agricultural districts already are enrolled in the "Rural Olympics" and other thousands are taking part in the colorful events which will pack every minute of huge fiesta. A valuable trophy has been offered to the counties group on Treasure Island sending the most acts to the Festival.

COUNTY EXHIBIT WINS SECOND AT PLYMOUTH FAIR

Shenandoah-Willow Springs Grange Captures First Honors; Eldorado Forest, Three Forks Grange Have Attractive Displays

El Dorado County gave enthusiastic support to the Twenty-Sixth Agricultural District Fair held last weekend at Plymouth, both in point of participation and in point of attendance, and won second prize in the community booths.

First honors went to the Shenandoah-Willow Springs Grange whose display, arranged by Mrs. Elizabeth Davis and assistants, featured the farm products of the fertile Shenandoah Valley.

Sponsors of the display said that they had endeavored to show what can be produced in a district given to diversified agriculture and this was done very successfully. The absence of those features which give an exhibit the appearance of a bazaar or museum was very noticeable.

Three Forks Grange made about the same exhibit they did at the El Dorado County Fair and its originality evoked a great amount of interest while the newly instituted Grange at Ione had a very interesting exhibit.

Eldorado Forest had an information booth attractively arranged with Forest Supervisor Edwin F. Smith and his staff on duty.

The El Dorado County exhibit was arranged by Dr. L. J. Anderson under the sponsorship of Chairman Cyril Heuser and the Board of Supervisors of El Dorado County. The display called attention to the slate products of the county, from the Pacific Minerals Company and other quarries and to the lime products of the Diamond Springs Lime Company.

Fruit and garden produce of the county were shown in an attractive arrangement flanked by silver tip firs, calling attention to the recreational opportunities of the county.

Some of those who were seen at the fair Sunday included Forest Supervisor and Mrs. Smith, Mr. and (Continued on page 4)

WARSAW SIEGE CONTINUES

France Ready For War On Western Front; Balkan Maneuvers Important

LONDON, (UP)—Warsaw's radio station informed the world today that the city still was fighting off the surrounding German army after another day of destructive air raids.

Reports were prevalent that the 53,000 ton \$20,000,000 German liner Bremen, third largest passenger ship in the world, had arrived at a British port under a warship escort, a British prize.

FRANCE READY

PARIS, (UP)—France has completed its general mobilization and the country's entire man power is in readiness for action at concentration points or has been assigned to duty, it was announced today.

By UNITED PRESS

A radio announcement from Bucharest that Premier Armand Calinescu—foe of Rumanian Nazism—had been assassinated and a sudden interruption of communications between Bucharest and the outside world hinted today at important developments in southeastern Europe.

The shooting of Calinescu and two or more of his assistants by the pro-Nazi iron guard, as unofficially reported to the Rumanian legation in Washington, was regarded as a possible effort to touch off a general outbreak in Rumania.

If such an effort were successful against King Carol or the Rumanian government which had drawn (Continued on page 4)

CONGRESS IN SESSION

Special Session Meets To Hear President's Neutrality Desires

WASHINGTON, (UP)—Congress met today in special session to hear President Roosevelt's neutrality message, which the White House indicated might propose repeal of the existing statute so as to avoid rigid restrictions in handling war emergencies.

This indication that Mr. Roosevelt wants a freer hand came from the White House shortly before Congress assembled. It was to deliver his message before a joint session in the house chamber at 1 p. m., CST.

A White House spokesman suggested that exercise of emergency powers already possessed by the President might be more effective peace protection than an inflexible neutrality formula enacted by Congress.

But the President's primary objective was emphatically stated to be abandonment of the statutory arms embargo by one means or another. It forbids export of arms, ammunition and implements of war to belligerents.

Indian Summer On "Warpath" For The Week

Our Indian Summer has "gone on the warpath" and today (Thursday) gives promise of being the seventh successive day in which the maximum temperature in Placerville reached at least 98 degrees.

This was the figure reached on Friday, Saturday and Sunday.

Monday the maximum was 100 and the minimum 38; Tuesday the high was 99 and the low 59; and Wednesday it was 99 again and 60 degrees during the night.

Fifteen deaths are reported due to heat in Los Angeles.

The current heat wave has accentuated the forest fire hazard and we have been fortunate up to this time in escaping any serious outbreaks in heavily timbered areas. Thunderstorms have resulted in several lightning fires on the forest during the week.

KOLETZKE FOR SENATOR

County Clerk Nominated As Successor To Post Vacated By Pierovich

County Clerk Arthur J. Koletzke is reported as "a possible candidate to succeed Senator Andy Pierovich" in an article which appeared in The California Republican for September 8.

Asked about the matter during the week, Koletzke said he feels it is a little early to be discussing the subject since there is nothing to indicate that an election may be held in the immediate future. He did say he has been thinking about the matter.

As a candidate for State Senator, Mr. Koletzke should be the kind of candidate that many people have been looking for, in expectation of an election to name a successor to Pierovich. His work as County Clerk has won the hearty approval of El Dorado County voters for a number of years and in the primary election a year ago, although he was unopposed, he led the county in number of votes received, polling a total upward of 4,000 votes.

If Mr. Koletzke decides to make the race, it appears that he will be likely to receive the united support of his home county. Further, he is well and favorably known in Amador County and in Alpine County and we should expect him to receive a large slice of votes in those counties.

In a two-paragraph "picture" of Mr. Koletzke, the political publication said:

"Arthur J. Koletzke, El Dorado County county clerk, is a possible candidate to succeed Senator Andy Pierovich, appointed by the Governor to the Superior Court. Koletzke is a Republican and resides in Placerville and has been county clerk of El Dorado County for many years. A believer in sound economies in government, a liberal in thought, Koletzke has a warm host of friends in the northern section of the state.

"From 1911 to 1913 Koletzke was deputy county assessor of El Dorado County; from 1913 to 1938 he has been county clerk and auditor, as well as a member of the El Dorado County Republican Central Committee. He is a charter member of the Lion's Club, Past President of Placerville Parlor No. 9, N.S.G.W., Past Master of El Dorado Commandery, member of the order of Eastern Star, and affiliated with Islam Temple, Shriners, of San Francisco."

Mr. and Mrs. Otto Herrman and son, Carl, were visitors at San Francisco and Treasure Island on Saturday and Sunday.

25 DEATHS FOR PAST WEEK

Business Houses Advise Their Employees To Remain At Homes

LOS ANGELES, (UP)—Business and social life practically was at a standstill in southern California today as the seventh day of an unprecedented heat wave dawned with temperatures ranging from 85 to 90 degrees, and shot upward 10 degrees within an hour.

Schools were ordered closed. Large department stores and corporation offices told their employees to stay home. Buildings were operated by skeleton staffs. Street car service was curtailed because of lack of passengers and illness among conductors and motormen.

The unofficial death list from the seven day heat wave reached 25, with thousands treated for heat prostration.

Two men ended their lives and a woman attempted suicide. Their acts were motivated by the heat, the coroner said. The men left notes to that effect.

In some areas of downtown Los Angeles streets virtually were deserted after yesterday's 120 degree street temperatures and official high of 107.2 degrees. (Continued on page 3)

FIREMEN HAVE BUSY WEEK

State Fights Blazes Near Nashville; Lightning Starts Numerous Fires

Fire suppression crews in the county have been "on the jump" during the past week with major activity centering in the district west of Nashville.

On Eldorado Forest, several fires are reported as having been started by lightning during a succession of thunder storms.

The state Division of Forestry at Mt. Danaher reported Thursday morning that three fires which had burned over large areas northwest of Nashville during the fore part of the week were under control. A fourth fire in the same district but farther west broke out Thursday morning.

A fire on Tuesday near the head of American Canyon, above Greenwood, was reported under control.

A fire attributed to lightning burned over about forty acres of brush and timber in the Indian Diggings vicinity Wednesday night.

On Eldorado Forest, three fires were reported Tuesday on Pacific district in the Silver Fork shed. They were caused by lightning and were controlled without serious loss.

Thursday morning the forest headquarters reported one lightning fire on Lake Valley district, about Camp Sacramento, and three on the Caldor district.

LOTUS

The weather the past week has been somewhat cool, especially the mornings and nights, and a coat comes in very handy. The warmest days for the week were on Saturday and Sunday when the mercury ran up to 96 degrees on both those days from noon to 3:00 p. m., and again on Monday when it was up to 102 degrees from noon to 3:00 p. m.

In our last letter giving the names of all our old friends and schoolmates who attended the Uniontown school some sixty-five years ago we omitted the name of Uncle Will Gallier who was among the others of whom we mentioned. This will give us 15 of our schoolmates still living instead of 14 which we had mentioned.

Deer season opened last Saturday and a number were out in the woods trying to get one. Joe Hansen and wife went up to Onion Valley Saturday morning to spend a few days hunting for deer.

Chas. Rice and Chas. Hines also went up to Peavine to try out their luck and we cannot report whether Joe and the two Charlies bagged one of the animals or not until they return home.

We learn that the enrollment of scholars so far this term has a daily attendance of 14 in the Uniontown school. Pretty good school but nothing like 75 pupils who attended this school 65 years ago.

Henry Walker, his wife, and daughter, Miss Fay Walker, who have been Lotus residents for the past ten years, left our town a week ago to make their future home at San Jose. This takes one scholar out of our school lessening it to 14. We much regret the Walker's leaving our town but hope they will meet with good success in their new home.

25 DEATHS IN HEAT WAVE

(Continued from Page One)

Hundreds of thousands of southern California residents spent the night in their yards, gasping for breath—and harassed by sudden winds and electrical storms which only increased their misery.

The freak winds felled trees; lightning flashed through the sky; striking trees and houses in residential districts and started 56 fires in Los Angeles county alone.

Hundreds of thousands of persons went to the beaches seeking relief, only to find the beach cities were almost as hot as their homes in the interior.

Long Beach, one of the largest of the beach resort cities, yesterday reported a maximum of 109. Thousands of elderly persons sat or stood in a few feet of water along the Long Beach strand last night and splashed themselves with handfuls of water in an effort to keep cool.

The official weather bureau forecast for today was an enigmatic "slightly modified."

Walter Bidstrup was representing the Logtown section in the county seat on Thursday.

The Orland project has enough irrigation water stored to last until Oct. 1.

SAN FRANCISCO (UP)—The state board of harbor commissioners reported today that cables from London promised there would be no further curtailment of fresh fruits from California.

With the receipt of fresh advices from London, the harbor board announced its refrigeration plant was prepared to accommodate all consignments.

European Set-Up as Allies Prepare Big Push

A graphic picture of the war situation in Europe is presented by this map. Poznan in western Poland holds out although Germans driving north between Rawa and Radom (1) and south from East Prussia have tried desperately to close the bottleneck (3) west of Warsaw. At Gdynia (4), an isolated Polish garrison "back door" route (5) exists by which reinforcements may be sent to Poland from Egypt and India. A countries have mobilized. Figures give armies' strength. On West Front, along Maginot Line, French attack attacks on Burgundy Gate invaders (B) were repulsed. Should Italy drop its neutrality, French divisions are massed at border (C). Italian passes (D) leading into Germany have been opened to trainloads of supplies. In north, British fleet has bottled up German navy in the Baltic.

GERMAN SIEGE

tically suppressed the iron guard organization the consequences might easily involve the Nazi and Red Army forces that smashed their way through Poland to the Rumanian frontier across which the Polish refugees, soldiers and government leaders fled.

The possibility of such developments in the southeast overshadowed for the moment even the shifting of millions of soldiers on the western front in preparation for the fight to a finish between Germany and the allied powers.

Germany shifted large numbers of troops, airplanes and war materials from the Polish front, where 1,000,000 Nazis has been in action, toward the Rhineland frontier facing France.

Great Britain, steadily pouring troops, artillery and airplanes into France, was believed to have captured or destroyed about one-fifth of the Nazi submarine fleet so far sent out to the high seas and it was believed British destroyers may have attacked more U-boats yesterday in the Kattegat Straits off Denmark.

MILK OF HUMAN KINDNESS FLOWS STRONGEST
AFTER MEAL-TIME, SOROPTOMISTS LEARN
IN MILK CAMPAIGN

People are more charitable just after they have eaten.

The current "milk bottle campaign" of the Soroptomist Club proves that, for at the club meeting Wednesday noon, a report on the contributions received during the past quarter showed that most of them came from milk bottles placed in the eating places of the community.

The milk bottles have been placed in various business establishments and bear cards which inform the public that the funds contributed will be used by the club to assist Works.

MARGARET SCHERRER GETS
IMPORTANT POST IN
S. F. HOSPITAL

Miss Margaret Scherrer, daughter of Mr. and Mrs. John Scherrer, of Placerville, has completed her three-year course of study in nurse's training at St. Francis Hospital, San Francisco, and has been appointed an assistant supervisor of nurses in that hospital.

This is according to Mr. and Mrs. Scherrer, who returned Wednesday from a three-week stay in San Francisco.

Miss Scherrer, who was graduated at El Dorado County high school in 1936, established a record of never having missed one day during her course in training. Her special qualification for the work is indicated by the assignment she has lately received.

Although Mr. and Mrs. Scherrer had intended to spend only a few days at San Francisco, their visit was prolonged when Mr. Scherrer was taken ill and doctors for a time considered the possibility of performing an operation to relieve his distress.

However, his condition responded to treatment and no operation was necessary.

Mr. and Mrs. C. G. Cello, who have spent the summer at Meyers Station, are again at their home in Placerville.

COMMUNIST PARTY
ENDORSES
HAM AND EGGS

The Communist Party, through its State Executive Committee, has formally endorsed the 30-Every-Thursday pension plan.

Read what it says: "The Communist Party believes that all progressive-minded people, regardless of their views on the workability of the Ham and Eggs plan, should support its passage."

American citizens: Stop, Look and Listen!

THE COMMUNIST PARTY IS PLEDGED TO THE OVERTHROW OF AMERICAN GOVERNMENT. It is committed to a program of sabotage and class warfare. It will use any means at its command to destroy confidence in American government and American institutions.

Communist agents, in every section of California, are militantly campaigning for Ham and Eggs. WHY?

Professional promoters of the Ham and Eggs scheme, with its cleverly contrived plan for a STATE DICTATORSHIP, are boldly adopting Communist weapons and beating the toms-toms of class hatred. WHY?

CALIFORNIA MUST ANSWER!

Dont make the mistake of passing this off as a harmless, crack-pot scheme. It is a crafty, dangerous scheme that would plunder California's public treasures, bankrupt business, throw tens of thousands out of employment and play havoc with all branches of government.

California Must Answer this brazen attempt of high-pressure promoters to make common cause with Communists against California government. And our answer must be an overwhelming "No" vote on the Ham and Eggs amendment.
